NATIONAL ARCHIVES AND RECORD ADMINISTRATION
FREEDMEN'S BUREAU PRESERVATION PROJECT

This National Archives microfilm publication is part of a multiyear project to microfilm the field office records of the Bureau of Refugees, Freedmen, and Abandoned Lands (Freedmen's Bureau). The project was made possible by the United States Congress through The Freedmen's Bureau Records Preservation Act of 2000 (Public Law 106-444). When completed, all of the field records for the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, Virginia, and for the District of Columbia will be available on microfilm. For microfilm availability and description, view both the microfilm catalog *Black Studies: A Select Catalog of National Archives Microfilm Publications* and the National Archives microfilm locator on our web site at www.archives.gov.

INTRODUCTION

On the 133 rolls of this microfilm publication, M1904, are reproduced the records of the Kentucky headquarters for the Assistant Commissioner and his staff officers and the subordinate field offices of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1865-1872. These records consist of bound volumes and unbound records, containing materials that include letters sent and received, monthly reports, registers of complaints, labor contracts, and other records relating to freedmen's claims and bounty payments. These records are part of the Records of the Bureau of Refugees, Freedmen, and Abandoned Lands, Record Group (RG) 105.

HISTORY AND ORGANIZATION

The Bureau of Refugees, Freedmen, and Abandoned Lands, also known as the Freedmen's Bureau, was established in the War Department by an act of Congress on March 3, 1865 (13 Stat. 507). The life of the Bureau was extended twice by acts of July 16, 1866 (14 Stat. 173), and July 6, 1868 (15 Stat. 83). The Bureau was responsible for the supervision and management of all matters relating to refugees and freedmen, and of lands abandoned or seized during the Civil War. In May 1865, President Andrew Johnson appointed Maj. Gen. Oliver Otis Howard as Commissioner of the Bureau, and Howard served in that position until June 30, 1872, when activities of the Bureau were terminated in accordance with an act of June 10, 1872 (17 Stat. 366). While a major part of the Bureau's early activities involved the supervision of abandoned and confiscated property, its mission was to provide relief and help freedmen become self-sufficient. Bureau officials issued rations and clothing, operated hospitals and refugee camps, and supervised labor contracts. In addition, the Bureau managed apprenticeship disputes and complaints, assisted benevolent societies in the establishment of schools, helped freedmen in legalizing marriages entered into during slavery, and provided transportation to refugees and freedmen who were attempting to reunite with their family or relocate to other parts of the country. The Bureau also helped black soldiers, sailors, and their heirs collect bounty claims, pensions, and back pay.

The act of March 3, 1865, authorized the appointment of Assistant Commissioners to aid the Commissioner in supervising the work of the Bureau in the former Confederate states, the border states, and the District of Columbia. While the work performed by Assistant Commissioners in each state was similar, the organizational structure of staff officers varied from state to state. At various times, the staff could consist of a superintendent of education, an assistant adjutant general, an assistant inspector general, a disbursing officer, a chief medical officer, a chief quartermaster, and a commissary of subsistence. Subordinate to these officers were the assistant superintendents, or subassistant commissioners as they later became known, who commanded the subdistricts.

The Assistant Commissioner corresponded extensively with both his superior in the

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Washington Bureau headquarters and his subordinate officers in the subdistricts. Based upon reports submitted to him by the subassistant commissioners and other subordinate staff officers, he prepared reports that he sent to the Commissioner concerning Bureau activities in areas under his jurisdiction. The Assistant Commissioner also received letters from freedmen, local white citizens, state officials, and other non-Bureau personnel. These letters varied in nature from complaints to applications for jobs in the Bureau. Because the assistant adjutant general handled much of the mail for the Assistant Commissioner's office, it was often addressed to him instead of to the Assistant Commissioner.

In a circular issued by Commissioner Howard in July 1865, the Assistant Commissioners were instructed to designate one officer in each state to serve as "general Superintendents of Schools." These officials were to "take cognizance of all that is being done to educate refugees and freedmen, secure proper protection to schools and teachers, promote method and efficiency, correspond with the benevolent agencies which are supplying his field, and aid the Assistant Commissioner in making his required reports." In October 1865, a degree of centralized control was established over Bureau educational activities in the states when Rev. John W. Alvord was appointed Inspector of Finances and Schools. In January 1867, Alvord was divested of his financial responsibilities, and he was appointed General Superintendent of Education.

An act of Congress, approved July 25, 1868 (15 Stat. 193), ordered that the Commissioner of the Bureau "shall, on the first day of January next, cause the said bureau to be withdrawn from the several States within which said bureau has acted and its operation shall be discontinued." Consequently, in early 1869, with the exception of the superintendents of education and the claims agents, the Assistant Commissioners and their subordinate officers were withdrawn from the states.

For the next year and a half the Bureau continued to pursue its education work and to process claims. In the summer of 1870, the superintendents of education were withdrawn from the states, and the headquarters staff was greatly reduced. From that time until the Bureau was abolished by an act of Congress approved June 10, 1872 (17 Stat. 366), effective June 30, 1872, the Bureau's functions related almost exclusively to the disposition of claims. The Bureau's records and remaining functions were then transferred to the Freedmen's Branch in the office of the Adjutant General. The records of this branch are among the Bureau's files.

THE FREEDMEN'S BUREAU IN KENTUCKY

ORGANIZATION

From July 1865 until June 1866, Maj. Gen. C. B. Fisk served as Assistant Commissioner for both Kentucky and Tennessee. Fisk appointed Bvt. Brig. Gen. John Ely to serve as chief superintendent for the Bureau at Kentucky (from March to June 1866). Ely established his headquarters at Louisville, Kentucky, and divided

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

his operations into five subdistricts: Lexington, Louisville, Northwestern, Southern, and Central. Records relating to Kentucky created prior to Ely's tenure may be included among the files of the Assistant Commissioner for Tennessee.

In June 1866, Maj. Gen. Jeff C. Davis was appointed as the first Assistant Commissioner for Kentucky. Superintendents (or subassistant commissioners) employed under Davis were generally responsible for from 3 to 11 counties, and agents (civilian and military) from 1 to 3 counties. Agents received their orders directly from superintendents, and all superintendents were required to submit monthly reports of their activities to the Assistant Commissioner. Brig. Gen. Sidney Burbank succeeded Davis in March 1867 and was replaced by Maj. Benjamin Runkle, who served from January 1869 to May 1869 as Assistant Commissioner and superintendent of education. In August 1870, when superintendents of education were withdrawn from the states, Runkle served as claims agent for Kentucky until July 1871. H. H. Ray succeeded Runkle as claims agent, and served in this capacity until December 1871. P. J. Overley became the claims agent in January 1872 and remained in this position until the Bureau's operations in Kentucky were discontinued in April. The major subordinate field offices for the Bureau at Kentucky included those with headquarters at Bowling Green, Lebanon, Lexington, Louisville, and Paducah. For a list of known Kentucky subordinate field office personnel and their dates of service, see the Appendix.

ACTIVITIES

While the Freedmen's Bureau did not begin full operations in Kentucky until June 1866, its activities in the state generally resembled those conducted in other Southern states. The Bureau supervised labor contracts between planters and freedmen, administered justice, assisted freedmen in the establishment of schools, helped freedmen legalize marriages, and worked with black soldiers and their heirs in processing claims relating to military service.

The regulation of written labor agreements between planters and freedmen was a major concern of the Freedmen's Bureau. In a circular issued on July 24, 1865 (Circular Number 2), Assistant Commissioner Fisk told his subordinates that for both Kentucky and Tennessee freedmen must be free to choose their own employers and that wages were to be based on supply and demand rather than a fixed rate. Bureau officials were to negotiate and approve labor contracts and enforce violations by either party. Compulsory unpaid labor was strictly prohibited. In some areas of Kentucky, planters refused to enter into written agreements with freedmen, and freedmen themselves were reluctant to enter into annual agreements for fear of being reduced to slavery. However, with strong reservations, Bureau officers negotiated monthly agreements for them but encouraged freedmen to sign annual contracts that offered yearlong employment. Wages for monthly contracts ranged from \$8 to \$10 a month for adult male field hands, well below the state's average wage of \$15 a month for men. However by the summer of 1866, with the Bureau's insistence, adult laborers in the tobacco region of the state received \$25 per month and laborers in the farm belt areas earned \$12 per month. In some Kentucky counties, freedmen

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION
MICROFILM PUBLICATIONS

received a third of the crops rather than wages. However, because of the shortage of laborers in the state, freedmen were able to demand higher wages, and thus over time the sharecropping system became less attractive.¹

The Bureau worked to protect the rights and legal status of freedmen, which, despite the ending of slavery by the 13th Amendment, were still endangered by the persistence of the old slave codes. On May 30, 1865, Commissioner Howard issued Circular Number 5, authorizing Assistant Commissioners to establish courts in states where the old codes existed and the right of blacks to testify against whites was prohibited. Gen. Fisk subsequently announced to the citizens of Kentucky that freedmen courts would operate in the state as long as freedmen weren't given the same rights as whites. By 1867, as a result of several Federal court rulings, Bureau courts ceased to operate in Kentucky. When state courts denied black testimony, the agency, under provisions of the Civil Rights Act of 1866, took cases involving freedmen to the U.S. District Court of Kentucky. In instances where freedmen lacked resources to pursue their cases in Federal court, the Bureau provided transportation for witnesses and other forms of assistance. Despite the Bureau's efforts to safeguard rights and secure justice for freedmen in Kentucky, admitting the testimony of blacks against whites still remained an issue in 1869 when Bureau Assistant Commissioners and their subordinates were withdrawn from the states. However, in January 1872, with a change in public opinion and pressure from the courts, the Kentucky State Legislature amended state law and allowed blacks to testify.

When Gen. John Ely began his duties as chief superintendent for Kentucky under Gen. Fisk's supervision, there were 30 freedmen schools and more than 2,000 students. The schools were organized and maintained by black churches, with black clergy as instructors. Freedmen schools faced widespread violence and white opposition, and in many cases, teachers and students were forced to abandon efforts to maintain school buildings. Ely and his subordinate assisted freedmen in reopening schools that had been forced to close.² Under Maj. Gen. Jeff C. Davis, who replaced Ely in the summer of 1866, the number of freedmen schools increased to 54, with some 67 teachers and more than 3,200 students. Excluding the schools established at Lexington and Covington under the auspices of the Cincinnati Branch of the Western Freedmen's Aid Society and the Cincinnati Branch of the American Missionary Association, the freedmen schools were taught by black teachers who were supported by subscriptions from parents and black religious institutions. The Bureau, however, rented the building for the school at Lexington. Under Brig. Gen. Sidney Burbank, who succeeded Davis in March 1867, the number of freedmen schools increased to 96, accommodating about 5,000 students aged 6-18. By

September 1868, in spite of continued violence and opposition, the Bureau had provided support for 135 day schools and 1 night school, serving more than 6,000 students.³

On February 14, 1866, the Kentucky State Legislature passed an act legalizing marriages freedmen had entered into during slavery and authorizing black ministers to solemnize such marriages. Nearly 2 weeks later, on February 26, 1866, Assistant Commissioner Fisk issued Circular Number 5, in accordance with the Kentucky law, directing those freedmen who sought to solemnize a marriage to the county clerk for a marriage license. If the county clerk refused to issue a license, Bureau officials in the subdistricts were authorized to solemnize marriages and issue marriage certificates. Local Bureau officers were required to maintain a register of freedmen marriages and forward a report of such marriages to the Assistant Commissioner at the end of each month. Subordinate Bureau officers were also told to notify persons living as man and wife who had not legalized their marriage, to report to the Bureau to take the necessary steps to do so. Persons who failed to comply were guilty of a misdemeanor and were to be punished by a fine and imprisonment.⁴ This microfilm publication reproduces marriage licenses, certificates, and registers of marriages for the Kentucky subdistricts at Augusta, Bowling Green, Columbus, Cynthiana, Owensboro, Paducah, Mt. Sterling, and Winchester. A single freedmen marriage license and a marriage certificate from Kentucky, filed in the Bureau's headquarters records, has been reproduced on roll 1 of National Archives Microfilm Publication M1875, *Marriage Records of the Office of the Commissioner, Washington Headquarters of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1861-1869*.

In addition to assisting freedmen in solemnizing slave marriages and efforts to sustain the black family, the Bureau helped discharged soldiers, sailors, marines, and their heirs in claims for back pay, bounty payments, and pensions. In accordance with a law passed by Congress on March 29, 1867 (15 Stat. 26), making the Bureau the sole agent for payment of claims relating to black veterans, Bureau disbursing officers assisted freedmen in the preparation and settlement of military claims. In November 1866, in spite of the difficulties in locating veterans who fled the state for fear of violence, Assistant Commissioner Davis reported that he had forwarded more than 260 black soldiers' claims for back pay and bounty payments to Commissioner Howard's office in Washington, DC. In the following year, Assistant Commissioner Burbank reported that his office had assisted nearly 500 veterans with military claims, and in the fall of 1868, for the year ending October 10, 1868, that more than 1,100 received bounty payments through his office.⁵

RECORDS DESCRIPTION

These records consist of volumes and unbound records. The volumes reproduced in this microfilm publication were originally arranged by type of record and thereunder by volume number. No numbers were assigned to series consisting of single volumes. Years later, all volumes were arbitrarily assigned numbers by the Adjutant General's Office (AGO) of the War Department after the records came into its custody. In this microfilm publication, AGO numbers are shown in parentheses to aid in identifying the volumes. The National Archives assigned the volume numbers that are not in parentheses. In some volumes, particularly in indexes and alphabetical headings of registers, there are blank numbered pages that have not been filmed.

The volumes consist of letters and endorsements sent and received, press copies of letters sent, registers of letters received, letters and orders received, registers of freedmen court cases, special orders and circulars issued, registers of claimants, registers of complaints, marriage certificates, and monthly reports forwarded to the Assistant Commissioner. The unbound documents consist of letters and orders received, unregistered letters and narrative reports received, special orders and circulars issued, and general orders and circulars received. The unbound records also contain monthly reports; labor contracts; marriage certificates, and records relating to claims.

Some of the volumes contain more than one type of record, reflecting a common recording practice of clerks and staff officers of that period. On roll 93, for example, the volume of contracts for the Columbus field office also contains a register of marriages. Some other examples of additional series within volumes can be found in records on rolls 106, 123, and 133. Researchers should read carefully the records descriptions and arrangements in the Table of Contents to make full use of these documents.

RELATED RECORDS

In the same record group, RG 105, and related to records of the Bureau's field offices for Kentucky, are those of the Bureau headquarters in Washington, DC, and previously microfilmed records of the Assistant Commissioner and the superintendent of education for Tennessee. These record series are available in the following National Archives microfilm publications:

Records in other National Archives record groups supplement those of the Assistant Commissioner. In Records of United States Army Continental Commands, 1821-1920, RG 393, are records of the military district that included Kentucky. Records relating to employment and welfare of freedmen and abandoned property before the establishment of the Bureau are among Records of Civil War Special Agencies of the Treasury Department, RG 366. The records of the Freedman's Savings and Trust Company, 1865-1874, in Records of the Office of the Comptroller of the Currency, RG 101, contain information relating to former slaves who maintained accounts with bank branches in Kentucky.

	<i>Name Index to Registers of Letters Received</i> The single-volume name index, July 1871–April 1872 (13), is an index to volume (12) of the registers of letters received mentioned below. Volume (13)	 July 1871–Apr. 1872

Registers of Letters Received

The twelve volumes of registers of letters received are dated March 1866–April 1872 (1–12). Entries in the first nine registers, March 1866–February 1870, are arranged alphabetically by initial letter of the surname of the correspondent and thereunder chronologically. However, each register does not contain all alphabetical divisions. For example, the “As” are in volumes (1), (3), and (9) only, and the “Gs” are in volumes (1), (2), (3), (6), and (9) only. The volume listings below show the initial letters of surnames included in each volume. The entries within each alphabetical division are numbered with a separate numerical sequence for each year, but don’t always span the time period listed below.

The last three registers, January 1870–April 1872, are arranged by time period. The entries in volumes 10 and 11 are arranged alphabetically by initial letter of the surname of the correspondent and thereunder in chronological order and numbered. The entries in volume 12, July 1871–April 1872, are arranged in chronological order and numbered with a separate numerical sequence for each year. The name index to volume 12 is volume (13) above. The letters received relating to the registers, March 1866–February 1872, are listed below.

Certificate

We the undersigned do most willingly certify the following in reference to the character of Mr. H. H. Watson, and are willing to do so on oath had we the opportunity, to wit:

That we have known said Mr. H. H. Watson from his early youth, and we have known him to be most Moral, steady, and industrious in his habits: for nine years a consistent member of the Pres. Lib. Church of Big Spring.

He has never failed to support a colored brother and younger brothers and sisters, and to perfect his own education which he has accomplished mainly by his individual exertions. We believe him most trustworthy, as he has shown himself so in the various business he has carried during the time we have known him.

Gilbert G. Gaff,
Elder in Presbyterian Church
of Big Spring, Albion Co. N.Y.
Wm. Taggart
J. H. Wakefield

We the undersigned say we are well acquainted with G. G. Gaff, William Taggart and J. H. Wakefield whose signatures are to the above writing and we have always known them to be gentlemen of undoubted veracity of good moral character whose representations are to be fully attended to. And so far as we are concerned we refer to Judge W. J. Burdick, Judge P. B. McLean & Judge Geo. W. Johnston

Relating to the dis-
continuance of Hospitals

WAR DEPARTMENT,

BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS,

Office of Chief Medical Officer,

Washington, Oct. 25, 1867.

Sir:

I have to acknowledge the receipt of your communication of the — inst., in reply to Circular Letter of the 27th ult. from this Office, relative to discontinuance of Bureau Hospitals and reduction in number of other relief establishments, in your Dist.

In reply I have to state that it is the wish of the Commissioner to reduce ^{the} number of Dispensaries as well as abolish all Hospitals, and that instead of establishing one or two more Dispensaries in the State, you will make arrangements, with the aid and consent of the Asst. Commissioner, for the proper care of all indigent sick and infirm throughout the State. The Bureau is not expected to continue the care of the sick and the local authorities must be compelled to take care of its colored poor as well as
(over)

the indigent whites. This has been done in some of the Districts and will be the universal rule and the State of Kentucky is as well, or better able than many others to help its own poor, and the military should insist upon the authorities observing its full responsibility and meeting its obligations in this regard.

Very respectfully,

Gouverneur T. Scott,

In looking over your Weekly Reports for last week and this, I find that my Clerk made an incorrect correction in last week's report in taking the "adult females" discharged during the week (January 25th) for '28' instead of '23' and made out his consolidated Report accordingly. Having forwarded this same day to Washington I saw the necessity to make the correct alteration. This mistake if correct causes your Report of this week to appear wrong. I sent herewith copies I urged to make them agree with your retained Copies, rather than call back my consolidated Report from Washington, which would cause considerable delay there. Please make the change in your next weekly Report and oblige

Desires that the entire
accountability for the
supplies at Louisville Hosp.
devolve on one. &c.

WAR DEPARTMENT,

BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS,

Office of Chief Medical Officer,

Washington, February 29, 1868.

Sir:

The files of this office show that no transfer of the Medical and Hospital property pertaining to Freedmen's Hospital, Louisville, Ky., for which you are responsible, was made at the time, nor since, you were relieved from the charge thereof; and as C. F. Jones, since his accession to the charge of the Hospital, has receipted for property, the anomalous condition is brought about of two officers, accountable for public property of the same nature in indiscriminate use at the same institution without reference to such accountability. This divided property responsibility will in time, if kept up, beget inextricable confusion, & render correct returns of the property, impossible.

You will, therefore, cause the entire accountability for the Supplies at Louisville Hospital to devolve on
(over)

one, and the officer relieved thereby will make a final Re-
Turn to this Office after the transfer has been consum-
mated.

Your attention is called, in this connection, to a
requisition for an outfit for a colored orphan asylum
at Lexington, Ky. drawn by you and approved in this
Office July 26, 1868. As the Bureau has a Medical
Officer stationed at that place, I would suggest to
you the propriety of having him receipt for the prop-
erty for the reason that, being at hand, he could have a super-
vision over it - seeing that it was not diverted from
its proper use - which distance would prevent you
from exercising.

Very respectfully,

Your obed^t serv^t,

II- Hereafter the following rules will govern the admission of Patients into the Hospital for Refugees and Freedmen in this City.

Patients will be admitted by special order of the Assistant Commissioner, on application of the Surgeon in Chief.

Patients will be admitted by order of the Surgeon in Charge of the Hospital upon the written application of an A. A. Surgeon.

This application will state the disease of the patient, whether destitute or not, and whether honest and deserving.

Upon presentation of this application and arrival of the patient the Surgeon in charge of the Hospital will in person examine the patient, and decide whether he will admit him, or her, as in his judgement may be right.

The Surgeon in charge will then endorse his

decision on the application and forward the same
to the surgeon in chief for file.

No patient will be admitted for medical treatment
unless he, or she, can be benefitted by such treatment.

Dr. Bell, Sir

You have probably received the requisitions made out for the next quarter by Dr. Drake. In making them out he overlooked several articles, among the rest is Spts. 'Fruimenti', if you have not forwarded them yet, I wish you would mark for some, as there is several cases of phthisis, & other chronic diseases that I cannot treat properly without giving some stimulant. As you may mark it on those, so I will mark on the Retain copy.

There is no "Additional Supply Table" in the "Officers Manual" that we have here, if you have an extra one will you please send me one, that I may insert it so as to have it for reference.

Dr. D. says he has never seen the "Additional Supply Table" for Refugees & Freedmen.

Doctor

I forward to-day the Requisitions filled out correctly according to sample & instructions, I have only signed them, you will please let Hines fill out the heading as he can do it nicer than I can & more correctly, One of the Blanks came to me ~~the~~ headed Louisville Ky, do you want the others that way?

My Old Requisitions were large but ~~my~~ they were within the bound of the "Blue Book," but I am satisfied that these will be plenty for this place.

There are several of those "Articles not Perishable" that I should like very much to have, as I think them almost indispensable, & I have them not, I am willing to become "personal responsible," & will promise to take good care of them, & will have them for ~~for~~ final Returns. They are the Tooth extracting Instruments, Towels & Roller, Dispensatory & Dunglison's Dictionary.

(If you conclude to let me have them you will please let them be marked upon the Requisitions ~~before~~ forwarding them.)

TEACHER'S MONTHLY
SCHOOL REPORT.

For month of June 186 7.

District or County Oldham

State, of Kentucky

Name of School, La Grange School

Name of Teacher, Henry Ward

Forwarded July 2nd 186 7

Received

EXPLANATIONS.

The accompanying Blanks is a copy of the Bureau Superintendent's Blank placed in columnar form for the sake of simplicity and to re-serve entire uniformity.

It is hoped that the Educational Associations will adopt this blank, or one which will contain these questions. (Should this exact form be adopted the Bureau can furnish the blanks).

If any question cannot be answered by the teacher, it may be left for their Superintendent. Place each answer, to the extent of your knowledge, opposite the question and he will fill the remaining spaces.

It is supposed that no teacher has more than one day and one night school, or but one of either.

Night and Sabbath schools taught by a group of teachers should be reported but once.

The question, "when opened?" has reference to the present season.

The above explanations are deemed necessary where this blank is adopted by the Associations.

Should more extended forms be used, it would oblige the Commissioner to have them include all the items of this.

TEACHER'S MONTHLY

SCHOOL REPORT.

For month of June 1867District or County JeffersonState, MississippiName of School, Washington SchoolName of Teacher, William H. Jones

EXPLANATIONS.

The accompanying Blanks is a copy of the Bureau Superintendent's Blank placed in columnar form for the sake of simplicity and to reserve entire uniformity.

It is hoped that the Educational Associations will adopt this blank, or one which will contain these questions. (Should this exact form be adopted the Bureau can furnish the blanks).

If any question cannot be answered by the teacher, it may be left for their Superintendent. Place each answer, to the extent of your knowledge, opposite the question and he will fill the remaining spaces.

It is supposed that no teacher has more than one day and one night school, or but one of either.

Night and Sabbath schools taught by a group of teachers should be reported but once.

The question, "when opened?" has reference to the present season.

The above explanations are deemed necessary where this blank is adopted by the Associations.

Should more extended forms be used, it would oblige the Commissioner to have them include all the items of this.

SCHOOL REPORT.

For month of June 1867.

District or County Jefferson

State, Kentucky

Name of School, Alford St.

Name of Teacher, M. M. Corning

EXPLANATIONS.

The accompanying Blanks is a copy of the Bureau Superintendent's Blank placed in columnar form for the sake of simplicity and to reserve entire uniformity.

It is hoped that the Educational Associations will adopt this blank, or one which will contain these questions. (Should this exact form be adopted the Bureau can furnish the blanks).

If any question cannot be answered by the teacher, it may be left for their Superintendent. Place each answer, to the extent of your knowledge, opposite the question and he will fill the remaining spaces.

It is supposed that no teacher has more than one day and one night school, or but one of either.

Night and Sabbath schools taught by a group of teachers should be reported but once.

The question, "when opened?" has reference to the present season.

The above explanations are deemed necessary where this blank is adopted by the Associations.

Should more extended forms be used, it would oblige the Commissioner to have them include all the items of this.

Recd Office Surg & Chief June 3rd 68

OFFICE OF CHIEF MEDICAL OFFICER,
BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS,

Washington, D.C., June 6, 1868.

It is desirable that all Acting Assistant-Surgeons in the employment of the Bureau, and especially those who are in charge of Freedmen's Hospitals, avail of every opportunity of contributing to the Anatomical and Pathological Collections of the Army Medical Museum.

The Museum comprises six Sections: 1, Surgical; 2, Medical; 3, Microscopical; 4, Anatomical; 5, Anatomical (comparative); 6, Ethnological. Specimens illustrating subjects pertaining to either of these branches will be appreciated.

Medical officers in the employ of the Bureau will make autopsies, or cause them to be made whenever practicable, in all fatal cases which may come under their observation, and they will forward to the Army Medical Museum all pathological specimens of interest thus obtained, and also any remarkable anatomical anomalies.

It is not intended to impose on medical officers the labor of dissecting and preparing specimens. This will be done at the Museum under the supervision of the Curator. Many pathological objects, to be mounted in the dry way, may be packed in boxes, protected by cotton or tow; others, designed for wet preparations, should be divested of superfluous soft parts, identified by a label inscribed in lead pencil on a bit of wood, enveloped in muslin, and immersed in diluted alcohol or whiskey, and placed in a can or keg, well secured. All should be forwarded by express to the Surgeon General's Office, the words "Army Medical Museum" being written in the lower left hand corner of the address. The expenses of expressage will be defrayed by the Surgeon General's Office. When the package is forwarded, a letter of advice, enclosing a history of the case, should be simultaneously transmitted. Where no express line is available, packages should be turned over to the Acting Quartermaster.

In addition to forwarding to the Museum such specimens of morbid anatomy as may be obtained from the patients under their charge, the medical gentlemen on duty in the Bureau are invited to contribute specimens of normal and comparative

anatomy and ethnology. The roughly cleaned skeletons of any of the rarer animals, mammals, birds, fish, or reptiles, will be valued. Human crania are particularly desired. Indian weapons and implements, such as stone axes, arrow-heads, etc., will also be highly appreciated.

Besides contributing to the Museum, medical officers are requested to communicate to the Surgeon General, through this Office, reports of cases that may come under their notice of remarkable recoveries from operations or injuries incurred in the late war. Reports of cases of consolidated fractures of the femur, of injuries of the large joints treated with or without excision, of penetrating wounds of the great cavities, and of ligations of the larger arteries, are especially sought for.

Medical officers may rest assured that their contributions, either to the Museum or to the surgical data of the Surgeon General's Office, will be duly acknowledged and accredited to them in the publications of the Medical Bureau of the War Department.

Sir

I have the honor to state that I received information on yesterday which led me to conclude that Charles Lancaster - colored - one of our Nurses, had been stealing Hospital Property and selling the same to parties outside the Hosp. limits.

He is now under arrest waiting your instructions.

Mrs Lucinda Anderson, colored, who resides on Magazine St. states that said Lancaster went to her house frequently with Govt. Property which he offered for sale and ~~that~~ ^{or property} at one time she purchased a linen sheet ^{or property} which is now in my possession) from him paying him \$5. for the same.

This occurred in the presence of her son, now dead, and daughter-in-law Mrs. Fannie Anderson colored who resides at Dr Standefords on the Preaton Street Road. This latter is ready to testify to the fact.

Mrs Sallie Anderson - colored - who resides on Magazine St - with the aforesaid Lucinda Anderson colored - can give testimony in the case.

[CIRCULAR.]

WAR DEPARTMENT,
BUREAU REFUGEES, FREEDMEN, AND ABANDONED LANDS.
OFFICE OF CHIEF MEDICAL OFFICER,*Washington, June 18, 1868.*

The attention of Medical Officers of the Bureau, especially those serving in regions heretofore visited by epidemic disease, is called to the necessity of using every available means for the prevention or spread of such diseases, as well as of reporting, according to prescribed forms (see Circular Letter from this Office, dated May 21, 1867), all cases occurring in their practice.

These reports need not be confined to the beneficiaries of the Bureau, but may embrace all cases coming under their professional care, and should state every circumstance connected with the history of the appearance of the first case coming to their knowledge, and every fact tending to elucidate the origin and progress of the epidemic. When the Sanitary means are not at hand to control or modify the epidemic, the Medical Officer will at once report the facts to the Surgeon-in-chief of the District, and in cases of great emergency he will call upon the highest Officer or Agent of the Bureau present for such assistance as he can render.

A watchful eye in the beginning to detect, and a prompt, energetic system to meet an epidemic, will go far towards abating the evil. Cholera patients should be at once isolated, if practicable, and a free use of disinfectants practiced in all cases.

Instructions in regard
 to the reduction of the

 Department of the Bureau
 in the Dist. of Ky.

SR 187 -

Recd O S C June 30 1868

WAR DEPARTMENT,

BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS,

Office of Chief Medical Officer,

Washington, June 26 1868.

Sir:-

It is the desire of the Commissioner to reduce still further the operations of the Medical Department of the Bureau.

I am therefore instructed by him to direct you to make arrangements at once for closing up every hospital in your District, except one only, to which the permanently sick and dependent freedmen now in charge of the Bureau shall be sent. The hospital thus to be temporarily continued, will be determined by yourself, having reference in making the selection, to whatever local needs may exist for its continuance, such as largest population of dependent negroes; liability to visitations by epidemic diseases, &c.

Wm. A. R. Commissioner of the District

may direct the civil authorities to take charge of the sick and destitute freedmen, you will be authorized to turn over a portion of the hospital furniture and medicines to them, reporting to this Office in advance what is proposed to be done, and giving an inventory of the property, which is expected to be furnished to the authorities at the time of the transfer. Should the Commissioner approve the list, authority will be given for its transfer when receipts will be taken in duplicate for the articles so turned over.

A list of patients stating age, sex, where born, how long living in the State, how long in Hospital, disease or disability for which admitted or now existing, and of how long standing, will also be forwarded to this Office.

You will also by direction of the Commissioner proceed without delay to close up the majority of the dispensaries now standing in your District. No time will be lost in accomplishing this work.

The necessity forming of them, if it ever existed, no longer remains, and the period has now arrived when the communities, and the freedmen as part of these communities, must depend upon their own resources for the care and maintenance of their sick. It is not proposed, nor can it be expected that the Government will indefinitely assume this charge.

Should a dispensary in your opinion be required in any portion of your District, you will at once make a report upon the subject, giving the fullest and strongest reasons for the belief. The reasons that have heretofore obtained for establishing a dispensary, will not be considered in every case sufficient to warrant its continuance, and it is expected that none will be continued after the termination of the current year.

Sir

I have the honor to report to you that the average number of patients treated in this dispensary every month amounts to 550. These people are not dissolute and worthless and among them are very few venereal cases. On the contrary they are generally married people with large families who owing to prolonged illness, great poverty, the hardness of the times and the great indisposition on the part of the former owners to employ colored people necessarily turn to the Bureau Dispensary for aid. A large number of the patients treated are females who suffer from obstinate and painful chronic affections peculiar to their sex, and which have been contracted, and aggravated by hard labor, want, & other depressing influences consequent upon their past and present, unfortunate condition

Yours
out

I have been connected with the Bureau as one of its medical officers almost from the first. I organized the first Bureau Dispensary in this state in the beginning of 1864. and I feel constrained to say that great as the need of dispensaries for freed men ^{then} was, it has in no degree diminished and the poor colored population would I am satisfied suffer terribly were the medical establishments now in operation. ^{discontinued} For the diseases most prevalent, are peculiar to the locality, are endemic, and are in no way likely to abate or disappear. Malarial diseases are this summer very prevalent and of a malignant type, and the sufferings thus induced and consequent also upon the violent gastro intestinal diseases which already have become quite common cause me to look forward with great apprehension to the coming months of summer and autumn.

The feeling of dependency upon the Bureau dispensaries, and grateful acknowledgment of their beneficent operation is generally expressed

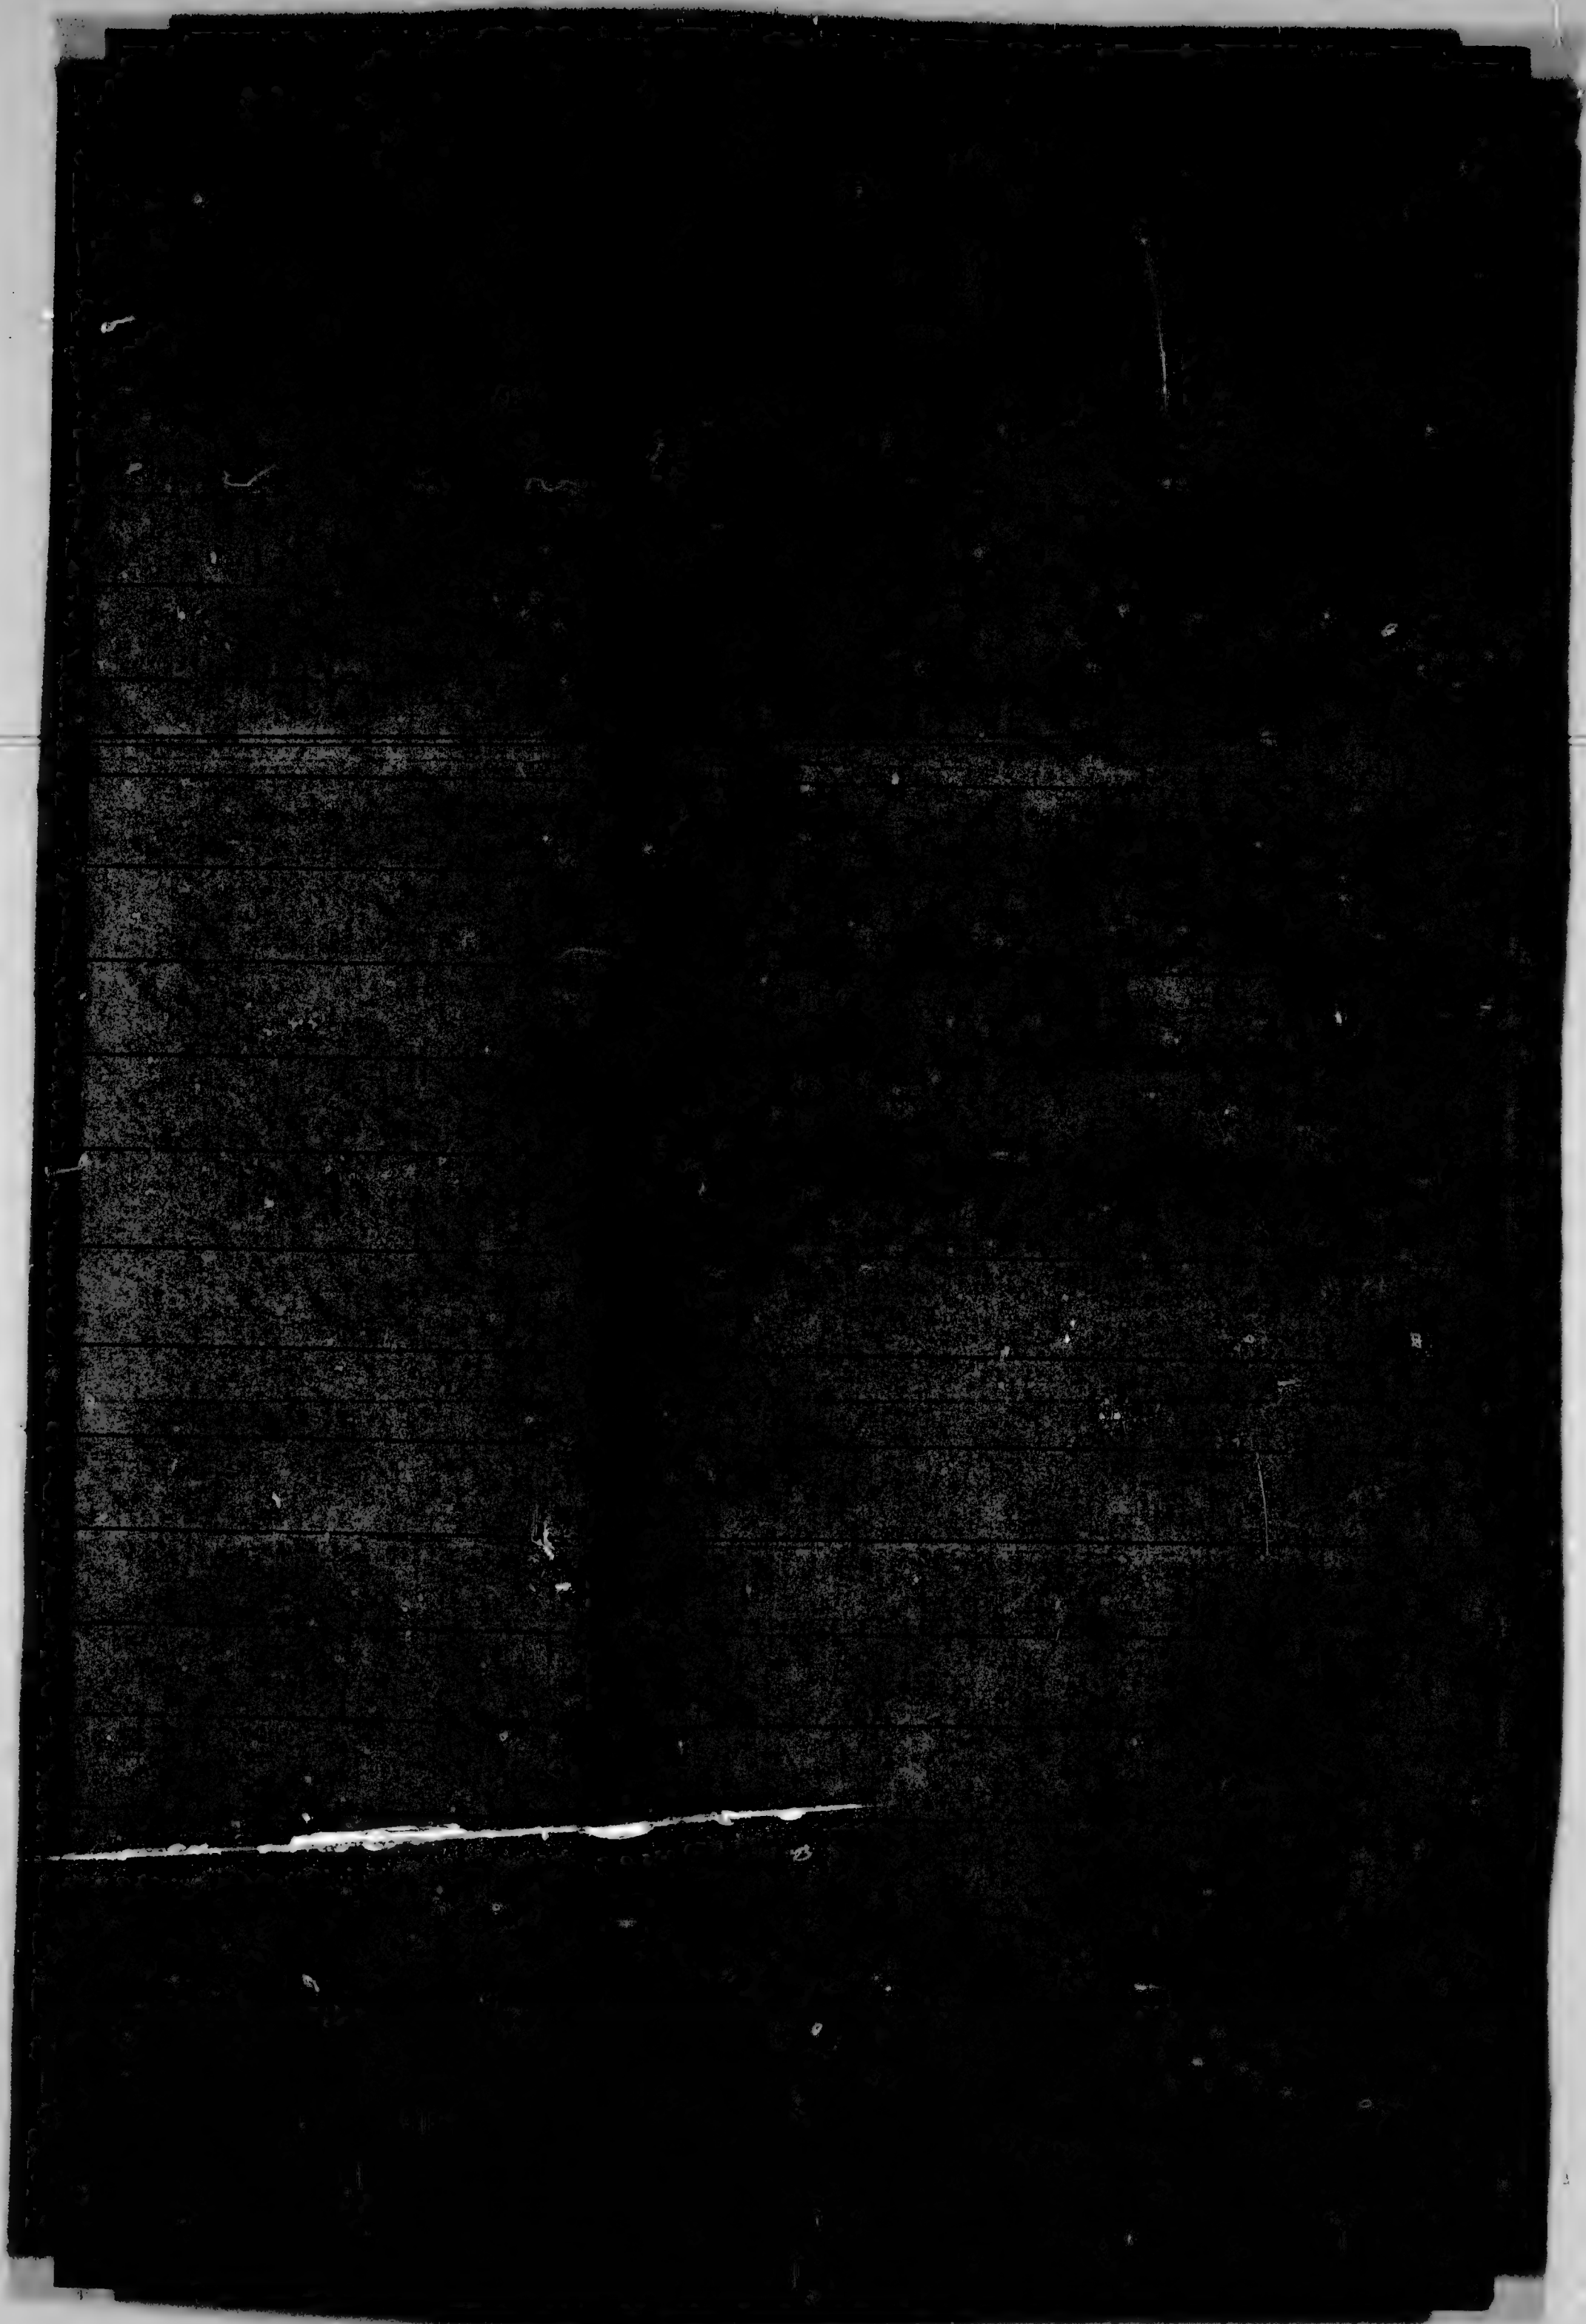

3.

by the Freedmen in this City. They also very often give utterance to forebodings of the evil retributions that await them when their establishments are withdrawn.

I have not the least doubt, but the deaths among the Freed people would become quadrupled, were the dispensaries and hospitals withdrawn.

In the name of those suffering and destitute, well meaning but unfortunately ignorant people permit me to urge that the dispensary now in operation in this City be continued and that others be added for there is work enough for a dozen Medical men, to be done among them, and the Bureau alone can help them. To the Bureau they look for relief. They can not help themselves.

Communication of the 2nd inst requiring me to give reasons &c why the Dispensary for Refugees of Freedmen at this place, should not be discontinued has been received, and in reply, I have the honor to state that there are many reasons why it should not be discontinued; to wit

The Number of Refugees & Freedmen in and around this place who are objects of Charity are about 1500, and owing to the inefficiency of diet & being compelled to sleep in low hovels a large proportion of them are necessarily sick, the Country for miles around is low and swampy, and during the winter and spring months a large portion of it is constantly covered with water and teeming with rank vegetation and as summer approaches these ponds and marshes dry up to some extent, but large pools of stagnant water are to be found in all directions; emanating the Miasmatic poison in great abundance,

It is a fair estimate to state that one out of every five have remittent fever or some other miasmatic disease, at all times of the entire year, saying nothing of the many other diseases that follow in their track.

The system of these people who live upon a poor diet, much exposed in bad weather, poorly clad and living in

exhausted huts sleeping in our ill ventilated rooms; constantly inhaling the emanations from the above named stagnant ponds and decaying vegetation, the great wonder is how so many of them escape as well as they do,

This place being situated upon the Ohio river and boats daily passing up and down, they drop the stragglers that get sick or wounded, (whom they may have employed and indeed bring them from other points) here for medical treatment,

What would be the result if this horn of Charity were to be withdrawn; is plainly to be seen, the destitute Refugees, who were rendered homeless by the ravages of the war; and the ignorant Stragglers who have not sufficiently recuperated their shattered Condition, to help each other, would be thrown upon the cold charity of the semi loyal public who would rather see them suffer and die than "lend them a helping hand"

The people generally, are so crippled in their financial Condition, that it will be some time before they will be enabled to take care of all their paupers, even were they willing to do so.

Average number of patients treated per month is (150) One hundred and fifty, Number of prescriptions actually put up is four hundred saying nothing of "Counsel" visits Continued treatments &c

Sir

I have the honor to submit to you, the following
Special Report.

The continuance of this Dispensary, at this point, is a matter of profound interest, to the Freedmen assembled in this City, from the various, interior Counties, of the State.

This Class of People now residing here, is quite respectable as to numbers, there being in the neighbourhood of 4000 in this City, Newport and vicinity. My Monthly Reports will be the best guide, to the number of Persons of this Class, who receive the benefits of this Charity: and will be the strongest reasons, that can be advanced, for the continuance, of this Dispensary. I would therefore call your attention to the character of said Reports, and ask you to refer to them for a fullness of statement, and matter, that I cannot give in a Report, such as this. In this connection allow me, to refer specifically, to my last Monthly Report for June; which I suppose is at this time in your hands.

The whole number under treatment for June was 432, 61 of them remained, over from the previous Month of May, while 371, were new Cases, of all Classifications.

In addition to the above, May be added the fact that the prices of living, are very high, while wages of laboring men are very low. A stout able bodied Man, may be employed at the rate of \$1.50 per day; this was the price of labor here before the War, when all kinds of produce was 50 per cent lower, than at present. About one in every four, that I am called upon, among the Freedmen, might be able to pay, a very small medical bill, and furnish his own medicine. But this not to continue long. The character of the diseases, likely to prevail here and, ~~elsewhere~~ do prevail, are such as are common, to this great Valley, Modified by circumstances and some local influences, we have Malarious diseases, regularly every season, with frequently recurring epidemics. These diseases always exhibiting greater or less degrees of severity, often being very fatal, in their results. We are now visited by a wide spread, epidemic of Measels, and there prevails at this time, and is on the increase an epidemic of Small Pox. These two diseases have prevailed for several months, and as a general thing have been mild, although there has been some grave cases among them. The Small Pox commenced early in the winter among the whites, but did not spread among the blacks until, late in the Spring, and now we are having it quite freely among them.

Inflammations are very common here, Dysentery is beginning to show itself, as well as Acute Dysentery; with some cases of Cholera Morbus, I cannot predict at this time, what may be the character of our autumnal Maladies.

The Cholera has not made any approaches, that I am aware of, further than ^{the} prevalence at present of Dysentery, and Dysenteries. Three years ago when the Cholera made its appearance in Cincinnati, and Covington, and up to the middle of July there was no prevailing form of Disease, except that epidemic dysentery, which commenced about this time of the year 1866, and was very fatal. But it is needless to anticipate dangers. The Freedmen here have to ~~occupy~~ the worst tenements, and live in the midst of the worst Sanitary Surroundings; they are crowded like sardines in B. Box, and they have no chance to escape, because their means are so meagre, that they cannot stand the expense.

But this Report is already too long, and after apologizing for its Length, I must bring it to a close.

Hoping that what has been said, will have its due weight with you I hereby close.

Very Respectfully

Your obedient Servant

Sir

In compliance with your letter of the 1st inst I have the honor to forward herewith enclosed a report of all persons now in Hosp. under my charge with their condition &c.

Presuming this action has reference to the continuing or discontinuing of the Hosp. allow me to say that I hope, for humanity's sake, the Govt. will not break up this institution for the present. It would be hard to throw the poor creatures out on the cold charities of the world especially their former masters most of whom would not care for them one day.

Having practiced among white and colored in this state for over twenty years, I know the habits and peculiarities of the latter well. In their condition of slavery they were never taught to take care of themselves in health much less in sickness and now if thrown on their own resources the old, infirm, crippled, and sick will inevitably perish. The better circumstanced portion of the race who can take care of themselves cannot provide for the class now in Hosp. Dispensaries are a great blessing to these people but the sick must have a home to shelter them food, clothing, nursing &c which cannot

be provided by the Dispensaries.

I hope the authorities will provide some
Hospl. or other place of refuge for the poor
unfortunate people

Doctor:

I have the honor to request that means be provided to repair the roofs on the buildings occupied as ward for the Home. Their condition is such that the wards are almost uninhabitable during a rain storm. Among the inmates are many aged pneumatic cases to whom the Hydropathic treatment is very injurious more especially when it is long continued as it has been for the past week.

With a few thousand shingles and a carpenter for a few days I can make all the repairs needed.

Doctor:

I have the honor to report that last evening a colored woman calling herself Charity Pendleton about 80 years of age who was nearly lost the use of both body and mind was found lying in the street near the Home.

She states that her masters name was Pendleton, that he lives in Campbellsburgh, Ky. that she came here to get into the Hospital. I gave her shelter for the night for if left in the street she must have perished from hunger and fatigue.

To turn her upon the street will most certainly kill her. Therefore I most respectfully urge that she be permitted to remain in the Home.

If ever there was a case where the laws of humanity demanded that assistance be given this is one.

Writes in reference to the
 transfer of the sick &

Recd. O. P. L. Ky. Nov 3rd 1868,
 L. R. 25211

WAR DEPARTMENT,

BUREAU OF REFUGEES, FREEDMEN, AND ABANDONED LANDS,

Office of Chief Medical Officer,

Washington, October 22^d 1868.

Sir:—

As by Act of Congress in July last promulgated in Circular No. 7 from the Head Quarters of the Bureau A. F. M. A. S., August 3^d, 1868, the existence of the Bureau will terminate on the first day of January next, it is important that provision should be made for the care of all the destitute infirm and permanently disabled freedmen now under charge of the Bureau—

In conformity with the intent and spirit of the Circular Letter of this Office dated June 26th, 1868, you will confer with the Asst. Commissioner of your district in regard to the closing of each Hospital and Dispensary now within your jurisdiction and the transfer of the sick and helpless inmates to the Civil authorities. This is a matter requiring prompt and decided action, and you are urgently invited to give it your earnest attention, so that the work of the Medical Department may be satisfactorily completed before the time fixed for the limitation of the Bureau expires. The civil authorities must have foreseen the necessity of preparing for this change and they may be now ready to accept the trust— If full and complete provision has not been made, a temporary policy must of necessity be adopted.

The Commissioner is ready to extend all facilities ^{and} whatever material aid he can give, for the inauguration of this work - an outfit - such as may be absolutely required for carrying on the hospital will be transferred at a merely nominal price, with the patients. - It is of course better that the transfer be made now, when this aid can be offered ^{as available} of, than at the end of the year -

In some of the States both "reconstructed" and otherwise, the transfer has ^{already} been effected, It remains therefore for the remaining States to fulfil their duty by assuming each its own share of the responsibility in the care of its destitute sick -

After receiving the instructions of, ^{and} cooperating with the Asst. Commissioner, you will report fully on the subject, stating particularly the action of the Civil Authorities in the premises, ^{and} when the expected change of responsibility involved, will take place ^{and} in what manner.

Very respectfully,

Your obt. Servt.,

L. A. Edwards.

I have carefully
read the within state-
ment of Dr. J. J. Temple
concerning the con-
dition and wants
of the Freedmen
in this city and
vicinity, and from
personal knowledge
say that it is a
faithful and
correct repre-
sentation of their
real condition.

R. A. Bell U.S.A.,

Doctor

I avail myself of the present occasion,
to address you a few lines, and shall
endeavor to lay before you, some of the wants
of the Freedmen of this city. They are with scarce-
-ly an exception, squallidly poor: and
during the present winter, must suffer
very much, unless they can get some relief.
The order breaking up the dispensary, at
this station, in my opinion was a serious
mistake: Occurring as it did, just at the
beginning of winter, as it were, and after
a summer, during which labor was very
scarce, and compensation was very low.
In addition to this, living has not declined
but remains, about the same in expense
as it was, again as winter approaches, the
amount of labor is abridged, and more

particularly that kind of Labor, in which this class of People have to engage.

Mechanical pursuits, are closed against this class of our population, and therefore the rougher labor falls to their share: such as heavy digging, and ~~all~~ out door work.

In addition to the poverty of the mass, of this class of People, referred to above, I would mention the fact, that quite a large proportion of them, are Females, many of these having the sole care and support, of helpless and innocent children. Very few among the Females, have the skill to do other, than the coarsest domestic labor, ^{such as} washing, house cleaning, &c. &c.

A few get situations, as cooks in the families of well to do people, ^{at good wages} where their former advantages, have been such, as to enable them with a good degree of skill, in this direction.

But very few have any skill, whatever with the needle; their capacity in this thing amounting to hardly enough, to make them independent, in the manufacture of their own clothes: Hence the making of garments, for the Shops although of consequence, to persons of

The necessary skill, is no resource to them. Their labor is not diversified; and hence competition, among them is great. This makes a corresponding reduction in wages.

My long connection with the Dispensary, ^{with} here has made me familiar ^{with} the circumstances of the Freedmen, and I can state that I have frequently ^{been} called ^{upon} since the Dispensary ceased to exist, to visit the Sick, who had not the money with which to pay for the Medicines, that their cases demanded: to say nothing of a Doctors Bill, or charges.

The Public Doctors, or Doctors of the Poor, will give them no attention, unless they are paid for it. When such is the case, and they have not the means, to pay with, they have simply to suffer, or call upon the Charitably inclined. There are no organized Charities here upon whom, they can rely.

I have regretted much, that I did not get your consent, to my retaining a portion of the Medicine, I recently had the honor to transfer to you, to dispense

Among this People, much distress, might have been alleviated in this way: for there is not a day in which, I am not called upon to visit cases, where the poverty of the patient, is not so great as to call for the exhibition of some such charity. The National Government, should have extended this charity, at least to these people until the close of winter.

They deserve it, and we as a Christian nation,
 owe them this thing, for a little while longer. Consider for a moment, the compulsory labor, these creatures have performed, and what they ^{have} produced, the amount, they have contributed, to the absolute wealth, of this country. With a moderate computation, they have by their labor, produced one third, of the wealth of this great country: of which in our rapacity, we have despoiled them.

This applies not only to the South, but to the whole country. Cotton was our great export, and we exported, every year before the war four years 100,000,000 dollars, of this material: all our other exports, did not amount to any thing like this sum. ~~are we not in their debt.~~ ~~answer to~~
 But I must close your ~~in great~~
~~He is~~ Respectfully
 J. F. Trench
